

Final Project

This is a comprehensive list of what you must turn in as part of your final project:

- 1) DATA
 - a. Email me the data that you use in your project.
- 2) PROJECT
 - a. Email me your final project, or a link to it.
- 3) REFLECTION
 - a. In 800-1000 words, explain:
 - i. Why you chose your data. Its affordances and limitations. Any cleaning or pre-processing you did with it.
 - ii. What method you used to analyze the data, and why.
 - iii. Your results, and your analysis of those results.
 - iv. Why you chose your format for presentation.

You have a limited number of words, so be brief. Give your attention to crediting yourself for work that is not evident from your presentation and final project itself.
